Base data has been drawn from 12-month average figures covering July 1, 1998 - June 30, 1999 as compiled by Arkansas Employment Security Department.

Individual county figures were summed to determine WIA totals.

For the time period considered, the entire State of Arkansas did not qualify as an ASU. In computing these numbers, ESD grouped together as many counties as could be contiguously grouped, yet having an aggregate average unemployment rate of 6.5%. The counties of Benton, Clark, Craighead, Faulkner, Johnson, Lonoke, Pulaski, Saline, Scott, Sebastian, Washington and Yell did not qualify. However, a census tract review was able to construct a 6.5% configuration in parts of Pulaski County enabling it to partially qualify. Such configurations could not be done for the other eleven counties.
